

Designing Healthy and Liveable Cities Symposium

30 November 2018 | Brisbane

Transport & Main Roads Conference Centre, MG.01 Conference Room,
Ground Floor, 61 Mary Street, Brisbane CBD

PROGRAM

08:45	09:00	Registration
09:00	09:10	Welcome - Chair: Professor Billie Giles-Corti, RMIT University
09:10	09:20	Introduction Why is this event important for Queensland cities? Presenter - Malcolm Middleton, Queensland Government Architect, Department of State Development, Manufacturing, Infrastructure and Planning

Session 1 - Creating healthy liveable cities in Australia

09:20	09:25	Introduction Session Chair/Panel Moderator - Professor Gavin Turrell, Deakin University
09:25	09:35	Building the case (and indicators) for liveability Presenter - Dr Hannah Badland, RMIT University
09:35	09:45	Casual inference research: the low hanging fruit, the difficult and the increasingly complex Presenter - Dr Jerome Rachele, University of Melbourne
09:45	09:55	What kind of built environment features and how much of them create healthy, liveable cities Presenter - Dr Lucy Gunn, RMIT University
09:55	10:05	Making the case for healthy liveable cities ... the CRE's impact beyond academia Presenter - Dr Paula Hooper, University of Western Australia
10:05	10:20	Questions & Answers
10:20	10:30	Launch of the Liveability Scorecard for Brisbane Presenter - Dr Melanie Lowe, Australian Catholic University
10:30	10:40	Urban Observatory Presenter - Dr Jonathan Arundel, RMIT University
10:40	11:05	Panel discussion and questions to presenters Panelists: <ul style="list-style-type: none"> ◆ Academia - A/Professor Matthew Burke, Cities Research Institute, Griffith University ◆ Academia - Dr Tracy Washington, Queensland University of Technology ◆ Industry - Nathalie Ward, Lat27 ◆ Government - Anna McGrath, Department of State Development, Manufacturing, Infrastructure and Planning

11:05 11:35 Morning Tea

Session 2 - Planning for an ageing population

11:35	11:40	Introduction Session Chair/Panel Moderator - Dr Jerome Rachele, University of Melbourne
11:40	12:10	Creating liveable, equitable and healthy communities for an ageing population: evidence and policy implications from the HABITAT study
12:10	12:35	Panel discussion and questions to presenters Panelists: <ul style="list-style-type: none"> ◆ Academia - Professor Neville Owen, Swinburne University/Baker Institute ◆ Government - Sharon Nicol, City Planning & Economic Development Branch, Brisbane City Council ◆ Government - Malcolm Middleton, Queensland Government Architect, Department of State Development, Manufacturing, Infrastructure and Planning ◆ Advocacy - Anne Savage, Bicycle Queensland

Designing Healthy and Liveable Cities Symposium

30 November 2018 | Brisbane

Transport & Main Roads Conference Centre, MG.01 Conference Room,
Ground Floor, 61 Mary Street, Brisbane CBD

PROGRAM

Session 3 - Health impact planning support system

12:35 13:00 **Development and application of a health impact planning support system to assist in the design, planning and creation of healthy liveable communities**

Presenters:

Dr Paula Hooper, University of Western Australia

Dr Claire Boulange, RMIT University

13:00 14:00 **Lunch**

Interactive MapTable session - Come and try the technology for yourself!

This drop-in session through the lunch break will provide you with an opportunity to get hands-on experience using the health impact planning support system the CRE researchers have been developing

Presenters:

Dr Paula Hooper, University of Western Australia

Dr Claire Boulange, RMIT University

Session 4 - The economics of designing healthy and liveable cities

14:00 14:05 **Introduction**

Session Chair/Panel Moderator - Dr Thomas Astell-Burt, University of Wollongong

14:05 14:20 **The health and economic benefits of building liveable cities**

Presenter : Dr Lucy Gunn, RMIT and Dr Belen Zapata-Diomedes, Griffith University

14:20 14:40 **CBA development for Active Transport Infrastructure**

Presenter - Adam Rogers, Queensland Department of Transport and Main Roads

14:45 15:10 **Panel discussion and questions to presenters**

Panelists:

- ◆ Academia : Professor Lennert Veerman, Griffith University
- ◆ Industry : Paul Low, Infrastructure, Government and Healthcare, KPMG
- ◆ Government : Penny Ford, Transport and Main Roads

15:10 15:25 **Afternoon Tea**

Session 5 - Healthy Active by Design: Evidence and Case Studies

15:25 15:30 **Introduction**

Session Chair/Panel Moderator - Dr Hannah Badland, RMIT University

15:30 15:40 **Healthy Active by Design Heart Foundation**

Presenter : Sheree Hughes, Heart Foundation

15:40 16:00 **The Green Grid: Inner City Brisbane**

Presenter - Nathalia Ward, Lat27

16:00 16:20 **RideScore Sunshine Coast**

Presenter - Colleen Penny, Sunshine Coast City Council

16:20 16:45 **Panel discussion and questions to presenters**

Panelists:

- ◆ Academia : Professor Jim Sallis, University of California, San Diego/Australian Catholic University/Active Living Research
- ◆ Government : Roger Meany, Queensland Health
- ◆ Government : Steve Connor, Development Assessment Division, Queensland Department of State Development, Manufacturing, Infrastructure and Planning
- ◆ Industry : Rachel Smith, Rachel Smith Pty Ltd

16:45 17:00 **Symposium Close**

Chair - Professor Billie Giles-Corti, RMIT University
